

**Spring calving season is almost here...**  
*Are you ready?*

Once your calves are on the ground, CattleMax cattle management software ensures you are getting the most from your cattle records. Let CattleMax help you prepare now for spring calving, get your herd health plan on track and put you on the path to improved management decisions with organized, accurate information.

***This Spring, CattleMax Can Help You . . .***

- **Improve Accuracy and Organization**  
Eliminate double entry of calves or duplicate tag numbers in your herd
- **Save Time in Data Entry**  
Calve a group of calves or move cow-calf pairs to new pastures in just a few clicks
- **Keep Your Herd Healthy**  
Record vaccinations, create medical treatment histories and set task reminders
- **Create Reports for Decision Making**  
Analyze your cow production with printable reports to make quick culling decisions

If your paper or spreadsheet records are slowing you down, CattleMax is the solution you are looking for. Choose CattleMax today to create value and efficiency in your record keeping this calving season.
